#### Al-Balqa' Applied University

#### وصف المادة الدرسية :

This Subject Deals With Aviation Mathematics, Physics and Aerodynamics Which Cover The Following **Items:** 

Arithmetic's, Algebra, Geometry and Trigonometry, Matter and Energy, Work, Power, Force and Mosion, Gas and Fluid Mechanics High Speed Aerodynamics and Helicopter Aerodynamics

أهداف المادة الدرسية :

#### بعد دراسة هذه المادة يتوقع من الطالب أن يكون قادراً على تحقيق الأهداف التالية:

- 1- Identify Number Systems and Calculations.
- 2- Understand Algebra Equations.
- 3- Computing Area, Volume.
- 4- Deal with Geometry and Tri Goniometric Function.
- 5- Deals with Physics Concepts Related to Matter and Energy.
- 6- Understand Concept of Physics Related to Work, Power, Force & motion.
- 7- Deal with Gas and Fluid Mechanics.
- 8- Understand the Aerodynamics & Principle of Flight For Fixed.

نأسست عام 1997

#### Al-Balqa' Applied University

#### وصف المادة الدراسية :

Study The Nature of Electricity, Theory and Principle, Units of Electrical Measurement, Sources of Electricity, Chemical Action And Magnetism, Current Electricity and OHM'S Law, Circuit Elements, Electric Power, DC and AC Current In Series and Parallel Circuits, Primary & Secondary Cells Batteries, Lead Acid and Nickel Cadmium Batteries, AC Voltage and Current, Resistance, Inductance and Capacitor in AC Circuits, Electron Control Devices and the Use of Electrical Measuring Instruments.

أهداف المادة الدرسية :

بعد دراسة هذه المادة يتوقع من الطالب أن يكون قادراً على تحقيق الأهداف التالية:

- 1- Study the Theory and Principles of Electricity.
- 2- Define and Study Current and Voltage Sources and its Measurements.
- 3- Use Ohm's law for Electric Circuits.
- 4- Study Series and Parallel AC Circuits.
- 5- Study and Define Transformer and is uses.
- 6- Study the AC & DC Generators and Motors.
- 7- Identify the Circuit Elements & Protective Devices.

أسست عام 1997

#### وصف المادة الدراسية :

Airborne Sources of Electrical Power AC & DC, Servicing and Maintenance of Power Source, Voltage Regulation, Power Rectification & Transformation . A/C Batteries Servicing & Maintenance, A/C Electrical Circuits, Wiring Installation, A/C Electrical Components Controlling & Protection Devices. A/C Lighting Systems, A/C Motors Servicing & Maintenance.

أهداف المادة الدرسية :

## Al-Balqa' Applied University

#### السبب عام 1997 بعد دراسة هذه المادة يتوقع من الطالب أن يكون قادراً على تحقيق الأهداف التالية:

- 1- Know the A/C Power Sources.
- 2- Service the A/C Generators Including the 100 hour & Routine Inspection.
- 3- Carry Out the Servicing of Voltage Regulators.
- 4- Check in the Workshops Using he DMM the Serviceability of Diodes and Transformers.
- 5- Know How to Us DMM.
- 6- Measure AC & DC Voltage Using the Voltmeter.
- 7- Measure AC & DC Current Using the Ammeter.
- 8- Measure Resistance and Continuity Check Using the Ohmmeter.
- 9- Servicing & Maintenance of A/C Batteries.
- 10- Perform the Inspection on Lead Acid Battery.
- 11- Perform the Inspection on Lead Nickel –Cadmium Battery.
- 12- Perform Wire Installation.
- 13- Know & Recognize the A/C Controlling & Protection Devices.
- 14- Know, Inspect & Maintain the A/C External Lighting Systems.
- 15- Know the A/C Motors AC & DC.
- 16- Service the A/C Motors Performing the 100 Hour Inspecting

#### Subject: Fundamentals of Electricity (Lab)-((16 Weeks))

رقم	اسم الوحدة	محتويات الوحدة	وحدة
الوحدة			الزمن
1.	A/C Power Sources	Identify the Methods of Producing Electricity on A/C.	
		Identify the Principle of Operation of the Power Sources	
		Identify the construction o systems	

نأسست عام 1997

		ناسست عام 1997	
2.	Generator & Motors	Identify the principle of operation.	
		Identify the types of generators and motors	
		Identify the construction of generator and motors	
3.	Voltage Regulators	He student will recognize the different types of the voltage regulator  Perform installation and adjustment	
		Perform installation and adjustment	
4.	Diodes & transformer	Check the serviceability of the diode by using DMM	
		Check the serviceability of transistor by using DMM	
5.	Know How to Us DMM	easure voltage by using DM	
6.	Measure AC & DC Voltage Using the	Voltage Measurements in Workshop.	
	Voltmeter Using the		
7.	Measure AC & DC	Current Measurements in Workshop Following the	
	Current Using the	Listed Procedure.	
	Ammeter	Predetermined Values to Measure.	
8.	Measure Resistance and	Resistance Measurements in Workshop Following the Listed Procedure.	
	Continuity Check Using		
	the Ohmmeter	Continuity Check Using DMM.	
9.	Servicing & Maintenance of A/C Batteries	Inspection and Servicing of A/C Batteries.	
	,		
10.	Perform the Inspection on Lead Acid Battery	Cleaning Testing & Charging of Lead Acid Battery Deep Cycle.	
11.	Perform the Inspection on Lead Nickel- Cadmium Battery	Cleaning Testing & Charging of Nick –Cad Battery Deep Cycle.	

نأسست عام 1997

12.	Perform Wire Installation	Wires & Cables on A/C.	
		Single Wire , Free Wire & Bundles	
		Looming and Lacing.	
		Cable Termination Spicing 7 Crimping.	
13.	A/C Controlling &	Types of Controlling Devices, Switches & Their	
	Protection Devices	Types and Uses.	
		Purpose & Types of Protection Devices Used on A/C.	
14.	A/C External Lighting Systems	Types of All External Lighting on A/C.  Identify the Location and the Checks Carried Out on All the Lighting Systems.	
15.	A/C & DC Moors Servicing & Maintenance	Types of the A/C & DC Motors Scheduled  Maintenance.	
16.	100 hr Inspection of A/C Motors	100 hr Inspection on Motors Using the Manuals

#### Al-Balqa' Applied University

#### وصف المادة الدراسية :

Ground Handling and Servicing Aircraft Systems and Components Jacking, Tie—Down Procedures, Oxygen, Fuel Servicing, Engine Run-up, Corrosion Identification and Treatment, Fluid Lines and Hoses Identification and Fabrication, Use of Hand Tools and Measuring Devices.

أهداف المادة الدرسية :

#### بعد دراسة هذه المادة يتوقع من الطالب أن يكون قادراً على تحقيق الأهداف التالية:

- 1- Identify he Types of Corrosion.
- 2- Corrosion Detection & Methods of Removal and Treatment.
- 3- Identify the Types and the use of Hand Tools.
- 4- Use of Precision Measuring Tools.
- 5- Identify the Safety Procedure in the Workshop, Around Machine Tools, and on the flight Line.
- 6- Understand, Jacking, Towing, Tie down Aircraft Servicing and Engine Starting Procedures.
- 7- Identify the Types of Fluid Line, Size Designation and Fabrication.
- 8- Identification of Fluid Lines.

نأسست عام 1997
